

Accordion Doors

Residential Applications

Accordion Door with Clear acrylic panels

Accordion Door with Oak laminate panels

Available with:

- Multiple panel options
- Automatic door operation

Proudly Made in the U.S.A.

Versatile and Beautiful

The Accordion Door is one of our most popular door choices and is offered as a standard feature on our residential elevators.

Standard Features

- Height of Opening: 7'0" or 7'11"
- Mechanical Locking Hinging: Meets the deflection requirements of ASME A17.1 (2016 and newer)*
- Laminate Panels: Available in Light Oak, Birch or White

Optional Features

- Light Curtain: Standard as a secondary protective device if installed under ASME A17.1 (2013 and prior); optional if installed under ASME A17.1 (2016 and newer)
- Additional Panel Options:
 - Laminate panels in Dark Oak, Chalk, Antique White, Cherry, Walnut or Black
 - Unfinished or finished matching hardwood veneer
 - Clear or Bronze acrylic
 - Solid or Perforated aluminum
- Height of Opening: From 6'8" up to 8'0"
- Automatic car door operator

NOTE: Accordion doors will typically have Bronze hardware except on White, Chalk or Antique White doors. Clear acrylic accordion doors will typically have Clear hardware when Stainless Steel or Black fixtures are provided. The hardware color may be specified per order/project.
